# **NEGRO VOTERS**

Stultify Themselves When They Support a Party That is in Favor

# OF DISFRANCHISING THE RACE.

Strong Arguments Set Forth by Rev. J. W. Waters Why Every Colored Man Should Stand by the Party That Tore From Him the Shackles of Slavery-Bishop Turner and Rev. D. W. Shaw Given a Few Hints to Ponder Over.

To the Editor of the Intelligencer.

SIR:-Solomon says to everything there is a season, and a time to every purpose within the heavens.

So this seems to be the time for the skillful politician to do his best to get votes. Every four years the negro betical world. So far as getting votes are concerned, and when we take into con-sideration the past, I think it a great privilege to be recognized as a voter and a vote-getter.

While we lament to see so much unlawful destruction of human lives and public property by the depraved bummers of the two races, we feel sure that, as the noble Anglo-Saxon, the American patriot spoke and said, "Peace, be still to the rioters of New Orleans, New York City, and Akron, Ohie, and it was obeyed, there are philanthropists among the race who are struggling to show the nation that they are walking worthy of their vocation." as the noble Anglo-Saxon, the American

### "Jim Crow" Cars.

There are many of the race nervous on account of the "Jim Crow" cars. If the word "Jim Crow" means sepa-If the word "Jim Crow" means separation, then we have separate churches, schools, barber shops, lodges, armies, stores, labor unions, families, etc. We would be very glad-to see the day when our great manufacturers would build a separate shop, where the skilled mechanic could earn an honest living, even if it were called a "Jim Crow" shop. What has President McKinley or Mr. Bryan to do with the "Jim Crow" cars? They are not railroad meh. There is a great deal of nervousness on account of the wholestile disfranchisement of the negot in three of the

There is a great deal of nervousness on account of the wholestle disfranchisement of the negro in three of the southern states. This is one of the most humiliating events that has occurred since the emancipation, which gave to every negro the right of franchise and in the reconstruction of the south the negro voted for his once master to have a vote and to hold office. That is, the ex-slave voted to take his master back into the union. Now, after thirty long years, they compensate him by taking from him his vote and making him a subject instead of a citizen. What Brayan Said. What Bryan Said.

Bryan said that if the Cubans and the Filipinos were not allowed a voice in the government, that they were

voice in the government, that they were subjects and not citizens.

Let one of the main issues of every candidate for Congress be to reduce the representation in proportion to the disfranchisment of the negro.

I am more than ever convinced that the way to perpetuate a prosperous nation is to perpetuate the principles of the Republican party, and to do this we must unite and elect the entire ticket.

et. I fall to see how a negro bishop or I fall to see how a negro bishop or preacher can draw a salary from a people who are all Republicans and come out for the Democratic party. It seems to be a strange move for Bishop Turner. What we need in our ranks is organ-izers and speakers of our own race, went it looks like "Jim Crow."

### Able to Meet Bishop Turner.

Then we will be able to meet Bishop Turner and know why he is assisting Bourke Cockran, of New York, and Sen-

Bourke Cockran, of New York, and Sen-ator Morgan, who said he was opposed to the negro having any share at all in the conduct of the government. Senator Tillman, of South Carolina, said in the lifty-sixth Congress: "This is a white man's government, and we intend to rule in the south by whatever means it is found necessary to employ," Ben Tillman says that the negro has no business with a vote. I think that Bishop Turner is an in-truder and is going to try to make in-

So accessed to the party. There has never been any inducements or promises of protection offered by the Democratic to the negros. But he hears it said from the stump by the leaders it said from the stump by the leaders of the Democratic party say publicly that they will guarantee to us our rights as citizens. I feel that I express the thoughts of inne-tenths of the negros of West Virginia when I say that we do not recognize Bishop Turner or Rev. Shaw as dictators or leaders of the race.

# Republican Rule.

Bishop William S. Derrick, of

Bishop William S. Derrick, of the African Methodist Episcopal church, is unqualifiedly for McKinley. Last week, in a dispatch-sent from Chicago it was said that Bishop Derrick, logether with Bishops Grant and Turner, would issue a statement favoring Bryan. When seen at his home. Bishop's Court. In Flushing, L. I., Bishop Derrick said:

I want to say in the most emphatic manner that I am for McKinley. I would vote for him a hundred times before I would vote for Bryan one. I take this stand because I believe that Bryan is advocating political and financial heresies which he could not and would not put, into practice of he were elected President. I advocate the election of McKinley and shall cast my vote for him because I believe it is best for myself and the 200,000 communicants of my church. Bishop Turner and myself differ radically on the negroquestion. He believes that all the ne-gree in America should go to Africa to find conditions suited to their welfare. question. He believes that all the negroes in America should go to Africa to find conditions, suited to their welfare. I believe that the United States is the best place in the world for the negro. I therefore desiré to have the best economic conditions prevail here. These conditions are more likely under the administration of McKinley than Bryan. Whatever indiume I have I will exert in favor of Mr. McKinley's election.

### WHEELING WHOLESALE MARKETS

Weekly Change of Quotations in all Lines of Local Trade.

Office of the Intelligencer, Wheeling, Sept. 11. There are few changes to note in the local market quotations. Sugars are very active, owing to the scarcity of raws, refiners stocks are depleted, and jobbers may soon experience difficulty in obtaining shipments, the demand is very heavy. Flour and rice are increas-

ing in strength. One jobber reports new Valencia raisins to arrive first of next week. Coffee holding steady, with an apparent good future.

There was a larger attendance of members of the stock exchange at the opening of the board this morning than for several months past. This was due partly to the returning tide from summer vacations, but there seemed to be an expectation among brokers and operators, which was not realized, that some renewal of interest in securities was about to be shown. London bought on a moderate scale here, that market being encouraged by continued case of money, and this helped the recovery from the opening decline here. The enthusiasm of the professional traders was short lived, however. They created a slight flurry in the Coalers, marking up New Jersey Central 2½ per cent and Reading first preferred a point, on the prevalent belief that a way will be found to adjust the differences of the miners and coal operators. fected territory moved narrowly. This was true, in fact, of the whole list, and the final prices showed very few important net changes. A stiffening of the rate for call loans to 2 per cent attracted attention to the possibilities of a money squeeze during the autumn. The rate fell back to 1½ per cent, when the banks came into the stock exchange with their unplaced balances late in the day. The prevalent ease of money is evidently due to the exceedingly scanty demand, and any active speculation will probably make rapid inroads upon the resources of the banks. It is pointed out that the surplus of the associated banks is concentrated in a very few institutions. While the total surplus reserves of the sixty-three clearing house banks on Saturday amounted to over \$25,000,000, more than \$10,000,000 of surplus cash over the legal requirements was held by a single institution. There was a rather sharp recovery in sterling exchange to-day, which gave point to the supposition that yesterday's decline was partly due to short selling, and to-day's supply of cotton bills was inadequate to cover the shorts.

### Breadstuffs and Provisions.

Breadstuffs and Provisions.

CHICAGO—Heavy export sales were mainly instrumental in a bulge in wheat to-day, October closing 1½-61½ over yesterday. Corn closed ½c and oats ¼-6½c higher. Provisions closed but slightly changed.

The forepart of the session in wheat was rather quiet, but firmness was shown. October opened ½-6¼c higher at 74½c to 74½c. The firmness was due to an advance at Liverpool, smaller northwest receipts and bad weather in the northwest. The elimatic conditions in that section will make threshing impossible for at least another week. The export demand caused shorts to cover rather freely, and under this pressure October advanced steadily to 75½c. There was profit-taking at the top, but the close was strong, October 1½-671½c improved at 75½-675½c. New York reported \$2 loads taken for export. Sales here were 500,000 bushels. The world's visible supply increased 2,500,000 bushels, compared with 1,339,000 bushels, compared with 1,339,000 bushels last year. Minneapolls and Dunth reported 601 cars, against 1,143 cars last week and 1,852 cars a year ago. Local receipts were 567 cars, ten of which were contract grade.

Corn was firm, but duil. Government crop figures suggested a crop of 1,550,600 bushels, and this was a

## Dry Goods.

Corn was firm, but dull. Government crop figures suggested a crop of 1,550,000 bushels, and this was a help to the market. Country offerings were light, and the wheat strength was also a help. There was a good shipping business done. October sold between 38% and 39%, and closed %c higher at 3963%. Receipts here were 541 cnra.

Out were fairly active and frm. Wheat was a help, and outside buying was much in evidence. October sold between 21% and 22%; closing %c7% higher at 22c. Receipts were 427 cars. Provisions were irregular. The market advanced moderately early, but eased off later. The cash demand applications of the country and the surface of the country of the country

Wool.

BOSTON—Duliness predominates in this week's wool market here. The sales recorded are smaller even than last week's small showing. Territory wools seem to absorb the bulk of the trade for fine medium and fine staple are quoted on the scoured basis of 50c. Strictly staple goods are quiet at 5263c. There is little doing in fleece wools and prices have somewhat softened. Ohlo XX and above quoted at 23½c; quarterblood washed at 23c. Foreign wools are slow of sale.
